## FOLD DOWN SIDE DUMP BODIES

3 Year  
Warranty

The Rugby® “Eliminator” body style is so popular, we have redesigned the fold down side dump bodies with the same sleek look.

“Eliminator  
Style”

Improved

Along with these visually appealing changes, we updated the design on the quick release lever for the sides: the centrally located handle extends and retracts pins at each end; we moved our greaseable hinges to help prevent interference with underbody toolboxes; our bodies are built with I-beam crossmembers and now feature a 5/8” solid tie rod for durability.

These are just some of the many features that have been added to our new fold down side dump bodies. All these update have been brought to you only by Rugby®, your better truck body and rugged truck hoist people.
