

VARI

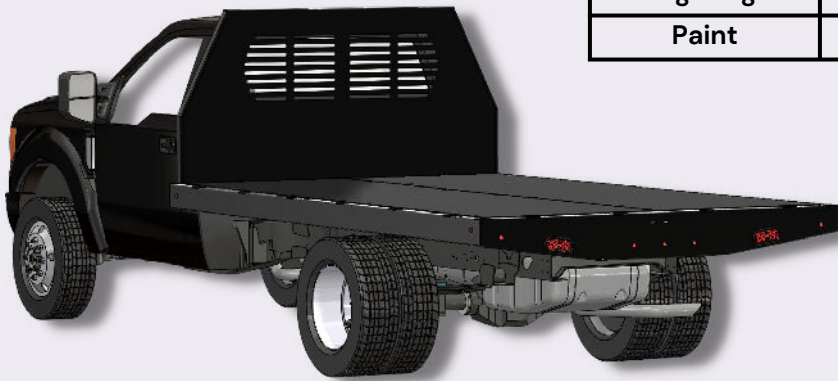

CLASS

The Rugby Vari-Class™ Platform Line is a smarter, more versatile way to work. Built as a true modular system, Vari-Class turns one rugged platform into multiple configurations to match the job. The redesigned Vari Flat base features standardized side pockets that accept all Vari Side options, allowing quick adaptation for hauling pallets, landscaping materials, equipment, and more. With interchangeable galvanized steel sides, multiple bulkhead styles, and duty ratings from Standard to Super Heavy Duty, Vari-Class delivers strength, flexibility, and customization in one dependable solution. Find your fit with the Rugby Vari-Class™ Platform Line.
